

BROOTEK ENGINEERING & SERVICES (OPC) PVT. LTD.

ABOUT COMPANY

Brootek Engineering & Services (OPC) Pvt. Ltd., is the source engineering-based company with expertise spread across different industries Breweries & Spirit Bottling Plant, Microbreweries, Cosmetic, Steel processing Line, Cut to length line, HR slitting line, CR slitting line, Pickling line, Personal products & Hygiene and Food & Beverages. BROOTEK Engineering is a major force in manufacturing of customized equipment and one of the few companies in the India which manufacture a complete range of different types of equipment under one roof on turnkey basis.

We have the infrastructure and expertise to design, develop and manufacture any customized plants based on the client's specifications and offer the clients a consistent exchange of high innovation, caliber through our advanced products, processes and systems. Understanding our client's challenges, constraints and competition enables us to offer turnkey project solutions and expert advice on productivity and maintenance.

As we offer complete solution to clients from visualizing the requirements to validating, financial along with installation, commissioning and training staffs. With substantial time in providing custom made solutions for various processes in the industry, Brootek Engineering guarantees the clients with high efficiency and consistent quality.

Our well-equipped infrastructure supports each and every quality measure, which enables us to provide excellent value in terms of products excellence to our valuable clients. Our infrastructure encompasses various departments, which include production, manufacturing, electrical, fabrication, project management and commissioning of equipment and machinery, quality control and assurance, research and development, procurement, sales and marketing, warehousing and packaging, administrative, logistics and many others.

Every single unit is equipped with advanced machinery and is skillfully handled by specialized team of professionals.

OUR MISSION

To provide world class engineering technology solutions with top quality partner to our clients, with a consistent exchange of high innovation, caliber through our advanced products, processes and systems.

OUR VISION

To become a leading Engineering Technology Solution provider offering Value for our Clients, Associates and Employees.

BROOTEK ENGINEERING MANAGEMENT

Whatever challenge you face, be it reorganizing your systems, expanding, modernizing, or installing completely new product lines, we are on hand to provide all the help you need. Our QA team help to ensure all the products can meet international standards. We at BROOTEK are dedicated to providing our customers with the right engineering technology solutions.

BROOTEK transforms your product design concepts to realistic, high quality engineering designs. Our services range from industrial design, material selection, manufacturability, commissioning, serviceability, optimizations and compliances.

OUR SCOPE OF SUPPLY INCLUDES:

- Basic engineering
- Drawing up flow charts and layouts
- Automation planning and development
- Design studies
- Process engineering
- General planning and coordination
- Process integration
- Process optimization and production monitoring
- Manufacturing
- Quality management

BROOTEK PROJECT MANAGEMENT

BROOTEK designs innovative and reliable engineering process systems that are the basis for superior product quality. We have been providing sustainable processing and equipment plant management solutions and together with the expertise of our multi-disciplined team – offers hygienic and aseptic equipment's and processes that maximize your production time and operational flexibility.

OUR SCOPE OF SUPPLY INCLUDES:

- Procurement & logistic
- Fabrication
- Installation Commissioning/Decommissioning
- Documentation
- Process engineering
- Warehouse & packaging
- After-sales service
- On-site assembly

ABOUT US

We help you succeed by implementing complete equipment solutions and services that allow you to manage your product more efficiently and effectively. The difference with BROOTEK is our core dedication to client satisfaction. At BROOTEK Technology, our goal is to maximize efficiency in the Quality. BROOTEK Technology is the world class engineering company with in-house manufacturing at 2 locations in PUNE, & NOIDA. We offer flexibility and customer proximity technology for products & services quality without any compromise. Complete system is made in India guarantees durable & top-quality equipment.

BROOTEK stands for honest, tailor-made and project-specific customer consultation. Turnkey Delivery as a complete system ensures maximum certainty of execution and costs. Our infrastructure encompasses various departments, which include production, manufacturing, electrical, fabrication, project management and commissioning of equipment & machinery, quality control & assurance, research & development, procurement, sales & marketing, warehousing packaging, administrative, logistics and many others. Every single unit is equipped with advanced machinery and is skilfully handled by specialized team of professionals and experts.

We are specialized in providing any type of regular and customized requirements both for small and large scale projects, covering all the aspects of a project starting from its concept till market release. We are also equipped of setting, transferring or decommissioning any new or old manufacturing plant as per clients' specification. We have successfully installed many projects for pharmaceutical SS bioreactors & mixers, brewery & microbrewery plant, dairy plant, processed food plant and soft drink, Steel processing line & beverage bottling plant including several locations in India. We also offer at highly affordable prices & in the specifications provided by the clients. We also offer technical training and installation services the same.

OUR STRENGTH

- Continuous development sets the benchmarks in the field of various Industrial equipment's & services.
- Future-orientated innovations.
- Realizing today the trends of tomorrow.
- BROOTEK has always foresighted the future trends on the market and ground-breaking technologies. A multitude of technical in-house innovations have left its mark on market.

OUR MAJOR CLIENTS LIST AS UNDER

- 1. MARICO LIMITED**
- 2. SNJ DISTILLERIES & BREWERIES PVT. LTD.**
- 3. ARTHOS BREWERIES LTD.**
- 4. AMERICAN BREWCRAFT BREWERIES**
- 5. GUILTFREE INDUSTRIES LTD.**
- 6. HYLIFE BREWEING**
- 7. AMEYA INC.**
- 8. BINGE BREWEIRIES.**
- 9. A R RAJU & BROTHERS.**
- 10. lilasonsalcobeV PVT LTD.**
